WORK EXPERIENCE

Software Developer Engineer II at Yardi, Oxnard, CA, Oct 2024 - Present

Full-stack software engineer on the Payments team, working across multiple ResidentShield products including ResidentShield Power and the ResidentShield Rewards program, a suite of resident-facing services offered through the RentCafe platform.

- Implemented API integrations and helped launch RentCafe Rewards, a resident loyalty program featuring a 1.5M+ item redemption marketplace, featured in a company press release (Feb. 2026)
- Coordinated across internal teams and external stakeholders to deliver features end-to-end
- Work across the full stack with JavaScript, React, Python, Node.js, C#, .NET, and SQL

Software Developer Engineer I at Yardi, Oxnard, CA, Oct 2021 - Sep 2024

Junior developer on the Relief Suite team, contributing to platforms like RentRelief and MortgageRelief, aiding individuals seeking financial support during the COVID crisis.

- Designed and optimized user-friendly interfaces ensuring seamless navigation
- Upheld code quality through thorough code reviews and collaboration across the team
- Contributed across the stack using JavaScript, React, MySQL, and Azure DevOps

Programming Intern at FileYourTaxes, Ventura, CA, Sep 2019 - Apr 2020

- Assisted in full-stack development of scalable, secure tax software systems
- Translated state tax documents into user-friendly web pages ensuring code met state schema requirements and return calculations were correct
- Facilitated the advancement of an in-house tool for printing data onto tax forms
